Foreword by Frank Maguire

CEO and Founder, The Maguire Group, Founding Senior Executive, Fed Ex

The older I get, the more I realize the impact of visualization on life. I remember so well, when I was a young man, dreaming of things I wanted and realizing that eventually, if I stayed focused on them, those dreams would become reality! The questions I had to ask myself so often were, "Was it a coincidence?" "Was it the power of prayer?" or, "Was it just a young boy dreaming his dreams?"

As I grew older, I realized that the best way to create the future was to "dream" it, to intend for it to happen! You are about to read a book which will show you the importance and significance of your dreams and the amazing power you have to make those dreams come true!

"Paving it Forward" will teach you the most powerful Law of Attraction technique of conscious intention that "lines up the energy" to create what you want.

When you learn how to consciously and positively Pre-Pave every part of your life, you will find yourself in the front seat of your own personal transformation—from adversity to victory, from mediocrity to brilliance.

People spend more time choosing what they are going to wear in the morning than they do choosing how they will connect with people, how they will feel or what they will accomplish. Pre-paving is consciously choosing how you want to look, live and feel through every part of your day and every part of your life. You might say, "If only life were so simple." I say, "Yes, it is and I will prove it to you!"
